

99211 & 99212 Rear Seat Mount Bracket Installation

Auto racing remains a very dangerous sport regardless of any protective devices you may use. Please read the instructions very carefully and if you have any questions please contact Kirkey Racing Fabrication Inc. 1-800-363-4885.

**FAILURE TO COMPLY WITH THESE INSTRUCTIONS MAY CAUSE
SERIOUS INJURY OR DEATH.**

MOUNTING INSTRUCTIONS

This bracket (rear seat mount) is to be installed using the following instructions. We recommend that you use no less than three (3) 5/16" (8mm) bolts directly through the bracket to the seat. (Spread the bolts out as far as possible to distribute the load). For the bracket to the frame (or steel roll cage), we recommend no less than three (3) 3/8" (10mm) bolts through the bracket directly to the steel roll cage. NEVER mount to sheet metal.

If you are not qualified to perform such fabrication have the installation done by an expert familiar with the requirements of such installation.

Be sure to check with your sanctioning body and/or track for their rules and regulations on seat mounting.
